OBJECTIVES

Experienced Software Developer with a strong background in full-stack web development, seeking an opportunity to leverage my skills in creating robust and scalable web applications. I aim to contribute to innovative projects that challenge me to grow professionally while delivering high-quality solutions.

PROFESSIONAL SUMMARY

Innovative full-stack web developer with one year of experience designing, developing and deploying responsive web applications. Skilled in website layout aesthetics and functionality utilizing HTML, CSS, JavaScript and utilizing popular frameworks such as Bootstrap, Vue, Sass and Tailwind CSS for frontend development and PHP, MySQL and frameworks such as Laravel for backend, with the use of RESTful API architecture.

ACADEMIC BACKGROUNDS

<u>DATE</u>	<u>INSTITUTION</u>	<u>GRADE</u>
2022 - Present	University of Nairobi	Third Year
2018 – 2021	Chebuyusi High School	KCSE = B-
2010 – 2017	Embakasi Garrison Primary School	KCPE = 305

LEADERSHIP ROLES

Chebuyusi High School: Library Captain

TECHNICAL SKILLS

Frontend Development

- HTML, CSS, JavaScript
- Bootstrap, Tailwind CSS, Sass
- Vue.js (Progressive JavaScript Framework)
- Nuxt.js and TypeScript
- UI/UX Design Principles

API Development

- PHP RESTful APIs
- Laravel API

Server-side Rendering

- PHP
- Laravel (PHP Web Framework)

Database Development

- MySQL

Additional Skills

- CI/CD Pipelines
- Git, GitHub
- Linux Bash Scripting
- Visual Studio code editor
- MySQL Workbench
- PHP MyAdmin

EXPERIENCE

- Gained hands-on experience with frontend technologies such as HTML, CSS and JavaScript in developing static website projects
- Developed and maintained responsive Single Page Applications using HTML, CSS, JavaScript and Vue.js, ensuring optimal user experience across various devices.
- Developed and maintained web applications using PHP and MySQL.
- Implemented RESTful APIs using PHP and Laravel, facilitating seamless communication between the frontend and backend components.
- Designed and optimized MySQL databases to store and retrieve application data effectively.
- Utilized Laravel for server-side rendering, leveraging its powerful features for efficient web development.
- Collaborated with cross-functional teams, including UI/UX designers, to ensure adherence to design principles and guidelines.
- Able to convert UI/UX design wireframes into web applications
- Utilized Git and GitHub for version control and source code management, fostering collaboration and code reviews
- Streamlined development processes by implementing CI/CD pipelines, automating rebuild, testing and deployment processes.
- Employed Linux bash scripting for automating various tasks and improving development workflows.
- Collaborated with senior developers, enhancing my understanding of software development practices and coding standards.

HOBBIES

- Watching Soccer
- Playing Rugby
- Listening to Gospel songs
- Following up on current developments in software development such as Artificial Intelligence impacts
- On how one can design a website with it and updates and additional features in programming languages
- Self-learning programming languages with YouTube Tutorials
